

Intelligent Hot Water

Graphics Designer

We are an exciting clean energy company developing our next-gen of water/space heating products. We integrate innovative and highly efficient technology with best-in-class hardware to make the world cleaner and more efficient.

We are looking for an exceptional **Graphics Designer** to join the Intellihot marketing team. You will be responsible for the various projects that help prepare for the next-gen launch.

What You Will Be Doing

1. Working in a culture that is customer focused
2. Create brochures, print collateral, images that identify our product and convey our vision
3. Develop graphics/videos for product illustrations and update website
4. Create designs either by hand or using computer software packages
5. Coordinate any print and merchandizing goods
6. Incorporate changes recommended by the clients into the final design
7. Play a significant role and make an impact on the company's brand success

Desired Skills and Experience

1. Familiarity with one or more design tools- Photoshop, illustrator, solidworks, InDesign, pro-e
2. Some familiarity with HTML & CSS programming languages for the web
3. Some knowledge of color space, printing processes, color separation, grid layout, and master pages

This position will be part of a new, exciting and high growth industry. If you are a driven designer to-be with the applicable knowledge and experience, please apply today!
