Technical Bulletin regarding Gas Valve Screw update

Models: All Gas Products Models

Description:

We are switching the IGT-HRD0038 (SCREW, PAN HD, TRIANGULAR-SHANK, TORX T20) used with the Gas valve to Blower mounting to a new supplier. The new part number is IGT-HRD0288 (SCREW, PAN HD, TRIANGULAR-SHANK, TORX T20). The new part is identical replacement.

When replacing the gas valve or blower

Please discard the previously installed HRD0038 (3 places as shown below). Please use the newly supplied IGT-HRD0288 screws.

Failure to perform the above change could cause gas leaks. A gas leak check is always required when a gas valve or blower is replaced.

To contact Intellihot product support, please call us at 1-866-692-6791 or email us at support@intellihot.com
